Uzbekistan possesses an enormous potential for production of different kinds of agricultural products, especially horticultural products which possess a high quality taste and export opportunities. Only in 2013, this event resulted in 700 contracts to purchase equipment for a combined amount up to \$30 million.

Exhibition includes the following thematic areas: «Fruit processing equipment», «Meat, fish and dairy products processing», «Milk processing», «Veterinary», «Bakery and macaroni production», «Labeling, printing and packaging equipment», «Freezing technologies», «Chemicals for plant protection, syringes», «Greenhouse equipment», «Beekeeping», «Agricultural techniques, machines and equipment», «Equipment for in-house (cottage) production (sewing machines, carpet production and etc.)», «Equipment for service industry».
